

PEDIATRIC INFECTIOUS DISEASES FACULTY POSITION
WEILL CORNELL MEDICINE NEW YORK, NY

The Division of Pediatric Infectious Diseases of Weill Cornell Medicine is seeking a Pediatric Infectious Diseases specialist to join our full-time faculty. The Department of Pediatrics provides comprehensive care to children throughout the 5 boroughs via a Level IV NICU, level III PICU, General Pediatrics and multiple subspecialties at the New York Presbyterian Hospital/ Phyllis and David Komansky Children's Hospital and Weill Cornell Medicine. The Division of Infectious Diseases provides consultations for children on the inpatient services and in the outpatient clinic, and provides specific services including pediatric HIV consultation and treatment and consultation and management of infectious complications in immunocompromised hosts.

Ability to manage a wide range of infectious diseases and complications, including preterm infants and in particular immunocompromised hosts including transplant patients, is required. The faculty provides coverage of the inpatient consult service, outpatient clinic, and are involved with pediatric resident and medical student education. Interest in developing a scholarly career in clinical or translational research is strongly encouraged.

Qualified candidates must be Board Certified/Board Eligible in Pediatric Infectious Disease. Candidates will be eligible for a faculty appointment with Weill Cornell Medical College commensurate with their experience and accomplishments. Interested candidates should possess a strong commitment to clinical care and education and will become actively involved in medical student and Pediatric resident mentorship and teaching. Weill Cornell Medicine is an Equal Opportunity Employer and is committed to equal opportunity for all candidates for employment and employees.

Interested applicants please submit CV and cover letter to:

Christine M. Salvatore, MD

Chief, Division of Pediatric Infectious Diseases

Associate Professor of Clinical Pediatrics
