The Department of Pathology and Laboratory Medicine at the University of California (UC), Davis, School of Medicine and the UC Davis Children’s Hospital is seeking a research-intensive pediatric pathologist who will have substantial participation in teaching and clinical service. Clinical and teaching expertise in general pediatric pathology is required. Additional expertise in molecular diagnostics, other areas of anatomic pathology, pathology informatics, biomarker discovery, or comparable areas will also be considered. Teaching duties may include clinical, didactic, laboratory and small group teaching of housestaff, medical students, graduate students, and students in other health professional programs, as well as participation in interdisciplinary clinical conferences.

Research areas of interest are not constrained, though the expectation is that the successful candidate will develop a thematic research program in a focused area of pediatric pathology. UC Davis supports collaboration in team science in addition to independent investigator-driven research. University strengths in human genetics, pediatric oncology and molecular oncology, innovative imaging technologies, infectious disease and immunology, neurodevelopment, and animal models of human diseases may provide opportunity for collaboration and/or research mentorship.

The successful candidate will have the opportunity to build on the many strengths in the UC Davis Health System, including close collaboration with expert hematopathologists, neuropathologists, bone and soft tissue pathologists, perinatal/placental pathologists, as well as outstanding clinicians and scientists throughout the UC Davis Children's Hospital, Shriner's Hospital for Children, Comprehensive Cancer Center, maternal-fetal medicine and fetal surgery programs, precision medicine program, MIND Institute, Institute for Pediatric Regenerative Cures, Center for Comparative Medicine, School of Veterinary Medicine, and California National Primate Center.

Requirements include MD or MD/PhD, board-eligible or certified in anatomic pathology and pediatric pathology, and an appropriate record of accomplishment in clinical service, teaching, and research to meet the requirements for appointment at the Assistant or Associate Professor level (50% Tenure Track / 50% In Residence). Eligibility for licensure to practice medicine in California is required. Other required skills include the ability to work cooperatively and collegially within a diverse environment as well as the ability to build and maintain productive professional relationships with medical and technical staff, trainees, and others.

For full consideration, applications must be received by October 10, 2016; however, the position will be open until filled, but not later than December 30, 2016. Please forward the following: (1) Curriculum Vitae; (2) Cover letter to include statement of clinical, teaching and research background; (3) List of names and contact information for at least three references to: https://recruit.ucdavis.edu/apply/JPF01223.

UC Davis School of Medicine is part of the UC Davis Health System, which is also comprised of the UC Davis Medical Center, the Betty Irene Moore School of Nursing, and the UC Davis Medical Group, an 800-member physician practice network. UCDHS has more than 10,000 faculty and staff and an annual budget of $1.6 billion; UC Davis is an established leader in the use of telecommunications and information technology to advance health. U.S. News & World Report recently ranked the SOM among the top 50 medical schools in the nation.

UC Davis is a smoke- and tobacco-free campus effective January 1, 2014. Smoking, the use of smokeless tobacco products, and the use of unregulated nicotine products (e-cigarettes) will be strictly prohibited on any property owned or leased by UC Davis- indoors and outdoors, including parking lots, and residential space.

The University of California, Davis is an affirmative action/equal opportunity employer with a strong institutional commitment to the achievement of diversity among its faculty, staff, and students.
